The announcement made in yesterday's issue of the Progress regarding the three added cash prizes for the active contestants in the Progress great automobile contest was eagerly read and fully appreciated by all. A number of the contestants and their friends have personally commended this paper on the excellence of this substantial and unlooked for additional offer. There are now indeed many good things in store for the many worthy and energetic candidates in this big, friendly, local enterprise—a long list of twelve big awards to be won in the two short weeks that remains of the voting. The incentive and remuneration for the contestants is certainly worthy of their best efforts in the subscription getting, and the race "down the home stretch" is sure to be a most interesting and exciting one.

The offer of the added cash prizes announced yesterday has fully rounded out this great popular contest enterprise. It has increased the value of the splendid prize list by exactly fifty dollars in real hard cash and altogether makes the campaign a record breaker from every standpoint. No public spirited offer of the proportions ever before made by any local firm, and with the additional cash prizes the campaign becomes further removed from the commonplace.

The contestants fully appreciate the real value and excellence of the many prizes offered as well as the honor that will go with winning them, there is not a "quitter" in the entire list of active candidates, and not one of them that will allow the very extraordinary opportunity to pass without a lively "battle" for supremacy. This fact is clearly demonstrated by the determined efforts that all are making, as well as by the very gratifying return with which they are meeting.

Many Votes Yet to be Had

The present week, and next week, are sure to be very busy ones for all of the contenders for the awards and the time will be productive of many thousands of votes for the subscription getters who properly plan and conduct their campaigns. Every day and hour of this time is very valuable

for those who would make the most of the chances that are theirs, and each day should mean a very substantial gain for every worker. The extensions as well as the renewals, new subscriptions, arrears and bonus votes will all play their part in the voting and not one legitimate means of increasing their votes should be neglected by the candidates.

Every reader of the Progress is now following the progress of the voting with the most profound interest and there is not one contestant in the race who does not have dozens of anxious friends and co-workers actively engaged in the subscription getting in their behalf. In every community there are yet dozens of subscriptions of all kinds to be had, many communities do not have an active entry in the campaign, still others have not been thoroughly canvassed and the contestants can readily see the importance of making their campaigns most thorough. The candidates should explain to their friends and prospective subscribers just what is at stake during these ten remaining days of the contest and what victory will mean to them. They should explain also the number of votes issued on the various length subscriptions and in this way many of the long term subscriptions will be secured. They should not neglect to explain, also, the importance of getting the subscriptions in this week when the votes will count for all of the prizes, and on no occasion should they neglect to state clearly the merits of the Progress and the wide circulation that it now enjoys, as well as the very thorough and strictly up-to-the-minute news that it carries to its readers.

Many Ways to Gain Votes

There are indeed many ways for all contestants to increase their vote standing and to assure their success at the close of the big campaign which is now drawing near the end. Every honorable means should be employed by all candidates to make their efforts a tremendous success. The mails, the telephone and personal interviews in person and by representative will all supply their quota of votes, and all contestants will find that the subscriptions secured during these last two weeks of the race will

C. OF C. SWELLS MEMBERSHIP BY BIG CAMPAIGN

Loyalty of Old Members and Interest of New Members Enlarge Enrollment

ORGANIZATION HAS A-1 RECORD

The dozen membership teams of the Chamber of Commerce are all hard at work and making successful reports at the office. Practically all old members are renewing their subscriptions and many new members have been added.

Few cities of Clearfield's size have received anywhere near as much in direct returns from their commercial organizations as Clearfield has received. This has guaranteed to Clearfield a strong organization just as long as the men will work together and achieve good results.

Clearfield's new industries are all prosperous and dump into the pockets of our people thousands of dollars every year, and will continue to do so for years to come.

The business men's profits on the part roll of one plant alone would maintain the Chamber of Commerce year in and year out—and the Chamber of Commerce directly assisted in the location of four industries in Clearfield and cooperated with a fifth, as the records of the Chamber of Commerce conclusively prove. These records are open to all members. Additional industries will be much more difficult to obtain. Economic and labor conditions have been materially changed by the location here of new plants. But a strong effort for a reasonable length of time will surely bring good results.

In the meantime, the Chamber of Commerce is constantly doing many things for the town outside of industrial promotion. But its industrial promotion work never ceases. Men are here every few days looking over our industrial advantages and almost any day it may be announced that still another factory has been secured for Clearfield.

It is a significant fact that not a single mercantile house or financial institution in Clearfield has withdrawn its membership from the Chamber of Commerce since it was organized in 1911. A few individuals have dropped out, but all mercantile or financial institutions have continued their active memberships.

Think of what it means to have a united business body in a town working for the advancement and the best interest of the community—working year by year, steadily, persistently, not intermittently. It's the town or individual that "keeps everlastingly at it" that gets the bacon.

Advertise in The Progress.

be for longer periods than the early subscriptions.

A rich harvest of votes now awaits the ambitious contestants who will go after them in the proper manner, for the public now realizes as never before the generosity and excellence of this offer. This interest and enthusiasm is by no means limited to Clearfield but it is general throughout the county and community. A little hustling and well directed effort and thought for the short time that yet remains, is all that is required to win that big Overland touring car or any of the other prizes and any candidate may yet be a high winner—will you or your favorite candidate win a top prize?

PENNA. TROOPS TO CHANGE CAMP SITE

Commander Protests Order On Account of Heat.

Pittsburgh, July 11.—(By United Press)—High officers at Camp Pershing have ordered the 7th division comprising of Pennsylvania troops to change their camp site, so as to bring all the units together, according to a special dispatch received at Pittsburgh today. The Pennsylvania troops through their commander have protested the order, declaring that they have just recovered from several days hard work in the blistering sun, making their present camp habitable, and it would impose an unwarranted hardship on them to go through several more days of such hard work they say.

PHYSICIANS OF 3 COUNTIES TO MEET

Noted Specialists to Speak At Meeting Wednesday

One of the largest gatherings of physicians of this section is planned for Wednesday when there will be a tri-county meeting held at the Country Club at DuBois. It is expected that about a hundred physicians from Clearfield, Jefferson and Elk Counties will be in attendance, and specialists will address the meeting. The assemblage is a union meeting of the Jefferson County Medical Society, Elk County Medical Society and the Clearfield Medical Society, and will convene shortly after noon.

The following is the program arranged for the occasion: "Differentiation Between Medical and Surgical Abdominal Pains," by Prof. Edward Martin, professor of surgery at the University of Pennsylvania, Philadelphia.

"Review of the Most Recent and Modern Methods of Diagnosis," by Dr. William H. Meruer one of the foremost diagnosticians of Pittsburgh.

"Surgical Dilation by Hydrostatic Pressure," by Dr. Will Getman, prominent obstetrician, of Buffalo, and assistant professor of obstetrics in the University of Buffalo.

OHIO TO HOLD STATEWIDE HORSESHOE PITCHING CONTEST

Columbus, O., July 11.—(By United Press)—Ohio is to hold a statewide horseshoe pitching contest at the annual state fair early this fall.

Rules to govern all contests, both county and state, have been drafted and sent to secretaries of county fair boards who are distributing them to all who want to enter. It is planned to hold contests at each county fair and the winners will compete for the state title at the state fair.

Important among the rules adopted for the contest are:

The distance between the pegs shall be 46½ feet.
Horseshoes shall not exceed 2 1-4 pounds in weight, not 7½ inches in length, nor 7 inches in width.
A game shall consist of 21 points.
"Ringers" shall count three points, "leaners" two points.
Magnetized shoes are barred.

SOUTHERN FORESTRY CONGRESS.

Asheville, N. C., July 11.—Of more than usual interest, because of its representative character, is the annual meeting of the Southern Forestry Congress, which convened in Asheville today for a four-day session. In conjunction with the sessions of the congress there will be meetings of the Association of Eastern Foresters and the Southern Forest Fire Conference. Many states are represented. Prominent speakers to be heard include Gov. Locke Craig of North Carolina, H. S. Graves, chief of the United States Forestry Service, and several state foresters and state geologists.

France And Great Britain Say Deutschland Is Not a Ship of Commerce

BRITISH PRAISE THE VOYAGE

Washington, July 11.—(By United Press)—Great Britain and France will do everything in their power to prevent the United States from recognizing the super-submarine Deutschland as a ship of commerce, and to prevent a line of submarine freight carriers, proposed by the German steamship company. This was admitted by the embassies of the two governments today.

The British embassies published reports denying the actual statement that the Deutschland is a war ship. Any submarine, the embassy states, is potentially a warship, as any ship at sea cannot be able to determine until too late to save itself, whether a submarine was armed. Questions not only as to whether the Deutschland is a war ship or a merchantman, but as to the cargo of nickel on its return trip, and this may cause embargoes to be placed on this class of goods imported from Canada and Great Britain to this country. 90 per cent. of the nickel used in the country comes from Canada.

Baltimore, July 11.—(By United Press)—No restrictions were put upon Captain Heinrich, U. S. N. and customs men when they boarded the super-submarine Deutschland this afternoon to inspect her armament. Major Hilken of the Oceanic Transportation company was told by Captain Koenig that he did not care as the men would learn nothing new in the vessel's construction.

Berlin, July 11.—Every British newspaper today devoted part of its news column on the arrival of the submarine Deutschland at Baltimore. The editors' columns praise the submarine's voyage. The German ship builders are laughing at Simon Lake's threat to bring suit against the Deutschland's owners for patent infringement. "Was it right for Juleserne to discover Va submarine?" If Lake had the patent, why did he not build submarines like the Deutschland.

MUST PAY HIGH FOR WOOLEN GOODS.

New York, July 11.—Today marked the formal opening in the woolen trade for the lightweight lines for next spring. Many of the principal buyers, forecasting the advance in prices on account of the war, laid in their stocks some time ago, so that the mill agents do not expect to see a very great rush of orders at the present time. There is still a large part of the clothing trade to hear from, however, and it is certain that they will have to pay record prices for their needs. In some cases, it is said, the mills have placed high quotations on their product for the express purpose of staying sales until such time as they are able to get what they ask.

The members of the Woman's Club attending the picnic tomorrow will go to Mineral Springs on the 1 15 P. M. train; jitneys will be provided for their return.

AUTO ACCIDENT AT INDIANA.

Turning out to avoid a passing vehicle an automobile, driven by John Walker, of Indiana, with Mr. and Mrs. David Pringle, and daughter, Maud, and Miss Morehead, of Indiana, as passengers, plunged over a 40-foot embankment just south of Punxsutawney late Sunday afternoon, and after turning over twice lodged against a stump and held. The occupants were thrown from the car but none was seriously injured.

Mr. Walker had driven to Punxsutawney and was returning home. Near the watering trough, just south of No. 3 mine on the Horatio road, he turned out to allow a buggy to pass. He turned his car too far to the left and the left front wheel went over the edge of the embankment. Before he could right the auto it tipped and plunged down to embankment. It struck a stump about midway down the declivity, which held it fast. The occupants were all thrown from the auto when it turned the first time.

Both Mr. and Mrs. Pringle are well up in years but beyond severe bruises they were uninjured, as were the other members of the party. Mr. Walker summoned a car from Indiana and the party reached home Sunday evening.

All the members of the auto party are suffering somewhat from shock but the condition of none of them is serious.

The automobile which Mr. Walker purchased about a month ago, is badly damaged.

READY TO RACE AT YONKERS.

Yonkers, N. Y., July 11.—Arrangements are complete for the opening here tomorrow of the seventeen-day race meeting under the auspices of the Empire City Racing Association. With many of the fastest horses in the East entered, the track in good condition and substantial purses promised for each day, the management expects one of the best meetings ever held at the local track. For the fifteen stake events on the program there are nearly 1,000 thoroughbreds named by seventy-six nominators.

FESTIVAL

There will be a lawn festival and social at the third ward house on Wednesday evening, July 12. Everybody invited.

Two dope fiends were arrested last evening in their room at the Wither Inn by Chief of Police McHenry and Officer Aides for securing a quantity of morphine from Thatcher's drug store on Second street. Persons addicted to the habit of using drugs will resort to any means of securing it and on account of the Harrison law they cannot buy it now from the druggists.

One of the men entered the store in the afternoon and asked Thomas Agnewbaugh to give him some human plasters and to leave him go back of the prescription counter to put one on, as his foot was very sore. Mr. Agnewbaugh gave his consent to this and was then called to the front of the store to wait on another customer who had just entered. It was while he was at the front of the store that the drug was stolen.

The two men left the store but did not appear to know each other until they were crossing the street to the Wither Inn when Mr. Agnewbaugh noticed that the one handed something to the other. He then became suspicious as this game was an old one to the druggists, and investigated to see whether the morphine had been stolen. He was unable to find the bottle containing twenty grains.

Mr. Thatcher, the proprietor, entered the store and upon being told of the robbery, called up Chief Henry who in company with Mr. Agnewbaugh and Officer Aides went to the room occupied by the two men last night. The men at first denied that they had stolen the drugs, but after a severe grilling admitted the theft and returned the drug.

The officers were unable to find any trace of the bottle when they first entered as the fiends had removed the powder from the phial and put it in a small match box which lay on the dresser. They destroyed the label on the bottle and threw the bottle away. It was only after the men had broken down and admitted all that the officers found the drug.

The men were then arrested and taken to the borough lock-up where they spent the night. The room was again searched this morning and a quantity of cocaine found which is supposed to have been stolen at Wrigley's store at Curwensville yesterday morning. At Wrigley's one of the men asked for some iodine which he wanted to put on a sore finger. He was taken back of the prescription counter and while there stole about one eighth of an ounce of the drug while the clerk was waiting on his accomplice in the other part of the store. Mr. Wrigley did not miss the dope until this morning when Mr. Thatcher informed him that the two men had been caught.

This morning in the lock-up the two men broke completely down and told the entire story. They said they wanted until there was only one son in the store so they could put a severe grilling before telling the story.

The two men were here a few months ago with the Coppins carnival and were in Clearfield yesterday en route to Philipsburg where they were to join the Doris carnival which is showing in that place this week.

Mr. Thatcher stated this morning that he would not prosecute the men owing to the physical condition which they are in. Mr. Wrigley, he in Clearfield some time today, will then decide whether to prosecute or not.

The men are practically phlegmatic, one of them saying the had been a dope fiend for over years. They were taken to Clearfield hospital this morning the officials where they will receive treatment. Stealing drugs is a petty offense.

100 Per Cent Increase In Deaths And New Cases Infantile Paralysis

New York, July 11.—(By United Press)—Despite the strong efforts to exterminate the epidemic of infantile paralysis in Brooklyn and Greater New York, reports showed an increase of 100 per cent. in deaths and new cases in Brooklyn since yesterday. The total number of deaths since the epidemic began reached 270 today according to the latest reports of Health Commissioner Emerson 20 of these

were in Brooklyn. Yesterday only 9 deaths were reported in Brooklyn. The total number of cases reported is now 1278. Of this number 195 new cases were reported today. This is an increase of 32 over yesterday's report. Of the total new cases reported, 155 were in Brooklyn. Only 68 additional babies were found to be suffering from the disease in other

BAD MANAGEMENT.

The honorable discharge of enlisted married men is met with delight by all who have the welfare of the families of those men at heart but the order could have been put into effect before they left Mount Gretna just as well as along the Texas border. A majority of them were carried clear to El Paso and given their walking papers there. This little piece of mis-management has cost us several thousand dollars.

WORTH WORKING FOR.

The contestant who does the most business this week will receive a prize of \$25 for his efforts. The next two highest will receive \$15 and \$10 respectively. There is some worthy individual among the contestants who will appreciate your support in the help given to win these prizes. If you have not yet subscribed, now is your chance to make your money do the most good. You get a good live newspaper for a year, you help somebody win an auto and somebody win a \$25 cash prize.

ARE WE NEXT?

Philadelphia has had sixty-four deaths from auto accidents since January first. The loss of life has been brought to the attention of city officials and steps are now being taken to eliminate speeding and dangerous practices. It does not matter what they do, however, they can take no action that will restore life to the innocent child who has been robbed of its heritage or give consolation to the parents who have lost the little child in whom they looked for a realization of their fondest hopes. We have with us, some speeders. The time to apply the brake band is now and not after the crepe hangs on our doors.

DOPE.

For several months we have read of the efforts on the part of city officials in different cities trying to break the dope habit. Today we are brought face to face with the awful results of the habit. Two strange men, of good appearance, resorted to stealing in their desperation. The Federal law no longer allows habit forming drugs to be sold and we find men of more than the average intelligence stealing, lying and even committing murder to obtain dope to satisfy their false appetites. The effect of what dope these two men had in them had worn off this morning and left them in a state of physical weakness. One of them on being asked if he knew that he was liable to get a penitentiary sentence replied that he did not care what they did to him and that he would be pleased to be shot and put out of his misery. Dope to him is sweeter than life. It is to be regretted that the dope law was not passed until such a late date.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from An Excess of Hydrochloric Acid

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity, meaning, there is an excess of hydro-chloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy lump in the chest, we belch up gas, we eructate sour food or have heart burn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

20 YRS. YOUNGER ASSERTS WOMAN DUE TO TANLAC

Marie Schulz Tells of Remarkable Recovery Through Using Master Medicine

"I feel twenty years younger, and sleep like a log when I go to bed," said Marie Schulz, of Grantham St., North Side, Pittsburgh, Pa., "since I began to take Tanlac."

"I had suffered for a long time with rheumatism, gas in my stomach, shortness of breath and my bowels were always giving me trouble."

"I often went for days at a time without sleeping, because of my terrible nervous condition."

"So I got a bottle. I had no idea I would get such quick relief. After I had taken about half a bottle, the rheumatic pains left my limbs. My stomach got so good that I could eat my meals and never feel bad afterward. My bowels got regular. When I would lie down at night, my head would hardly touch the pillow until I would be fast asleep. When I awakened in the morning, I felt rested and could hardly believe it was myself."

"Since I have been taking Tanlac, I have not been troubled with gas pressing up against my heart. I eat what I please. I go out among the neighbors and visit them and my friends, and if I want to go to a theatre I go and have a nice time. I never am afraid of being sick any more."

Tanlac is now sold in Clearfield exclusively by Woodward & McPherson, where the premier preparation can now be had.

INFANTILE PARALYSIS

Infantile Paralysis is a disease that affects the nervous system. It often causes death, and again, the acute stage frequently subsides and leaves paralysis of one or more of the limbs that heretofore has often lasted through life.

Today we do not know what causes the disease, therefore preventive measures must be broad. You must keep the children away from insect life, such as flies, mosquitoes, fleas, bed bugs, ticks, ants, lice, etc. You should see that all rats and mice around the building are killed. Pet cats and dogs should be washed with a two per cent carbolic acid solution to destroy insect life. Everything should be kept clean about the home, including the children's bodies and clothing.

Children should be fed well but not indulged in large quantities of water, ice cream or other frozen dishes on a full stomach, as that will often cause acute indigestion and render them susceptible to other diseases. In other words, the digestion should be guarded carefully.

Children should have plenty of sleep. They should be well ventilated but screened from flies, etc., and any flies that happen to enter the building should be killed. All food-stuffs should be protected from flies, dust, etc. Fruit and vegetables eaten raw should be thoroughly washed in clean water.

Children's mouths should be rinsed out and their throats gargled with Dobell's solution after each meal. If the children are too young to rinse or gargle, wash the mouth with a piece of fabric, muslin or linen, that has been dipped in Dobell's solution.

Children should be kept out of crowded places and be denied the frequent access to crowded halls of entertainment during our present threat with epidemic.

The youngsters should not be permitted to sit on the damp ground nor have their bodies thoroughly chilled, day or night. They should not bathe in cold water until their circulation is interfered with and they become chilly and blue.

A Mammoth Storewide Stock Reduction of Fine Spring and Summer Merchandise, Priced at Cost and Less
Beginning Wednesday, July 12th, at 9: A. M.

Selling throughout Spring and early summer was heavy but not heavy enough to close out stocks. We must sell this surplus and sell it immediately, it being the unfailing policy here never to carry goods from season to season. We feel that nothing so forcefully represent the savings as the simple but truthful statement that prices now are lower than in any previous clearance when there was no European war to disturb conditions. Values in the 1916 July Clearance are the best presented in our many

years of store-keeping. They are extraordinary and plentiful, existing in good numbers in all departments.

Remember the opening date of this great Sale event, Wednesday, July 12th, at 9 a. m.

The announcement made in yesterday's issue of the Progress regarding the three added cash prizes for the active contestants in the Progress great automobile contest was eagerly read and fully appreciated by all. A number of the contestants and their friends have personally commended this paper on the excellence of this substantial and unlooked for additional offer. There are now indeed many good things in store for the many worthy and energetic candidates in this big, friendly, local enterprise—a long list of twelve big awards to be won in the two short weeks that remains of the voting. The incentive and remuneration for the contestants is certainly worthy of their best efforts in the subscription getting, and the race "down the home stretch" is sure to be a most interesting and exciting one.

The offer of the added cash prizes announced yesterday has fully rounded out this great popular contest enterprise. It has increased the value of the splendid prize list by exactly fifty dollars in real hard cash and altogether makes the campaign a record breaker from every standpoint. No public spirited offer of the proportions ever before made by any local firm, and with the additional cash prizes the campaign becomes further removed from the commonplace.

The contestants fully appreciate the real value and excellence of the many prizes offered as well as the honor that will go with winning them, there is a "quitter" in the entire list of active candidates, and not one of them that will allow the very extraordinary opportunity to pass without a lively "battle" for supremacy. This fact is clearly demonstrated by the determined efforts that all are making, as well as by the very gratifying returns with which they are meeting.

Many Votes Yet to be Had

The present week, and next week, are sure to be very busy ones for all of the contenders for the awards and the time will be productive of many thousands of votes for the subscription getters who properly plan and conduct their campaigns. Every day and hour of this time is very valuable

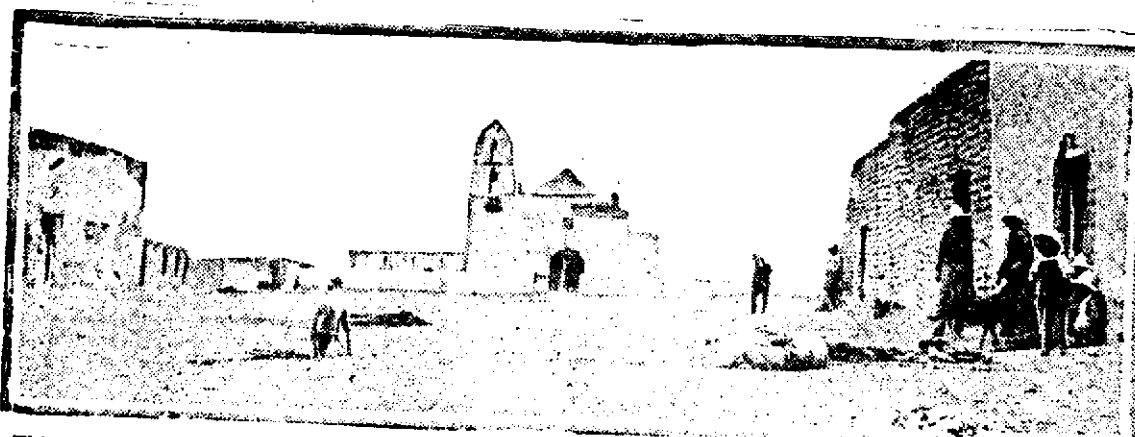

for those who would make the most of the chances that are theirs, and each day should mean a very substantial gain for every worker. The extensions as well as the renewals, new subscriptions, arrears and bonus votes will all play their part in the voting and not one legitimate means of increasing their votes should be neglected by the candidates.

Every reader of the Progress is now following the progress of the voting with the most profound interest and there is not one contestant in the race who does not have dozens of anxious friends and co-workers actively engaged in the subscription getting in their behalf. In every community there are yet dozens of subscriptions of all kinds to be had, many communities do not have an active entry in the campaign, still others have not been thoroughly canvassed and the contestants can readily see the importance of making their campaigns most thorough. The candidates should explain to their friends and prospective subscribers just what is at stake during these ten remaining days of the contest and what victory will mean to them. They should explain also the number of votes issued on the various length subscriptions and in this way many of the long term subscriptions will be secured. They should not neglect to explain, also, the importance of getting the subscriptions in this week when the votes will count for all of the prizes, and on no occasion should they neglect to state clearly the merits of the Progress and the wide circulation that it now enjoys, as well as the very thorough and strictly up-to-the-minute news that it carries to its readers.

Many Ways to Gain Votes

There are indeed many ways for all contestants to increase their vote standing and to assure their success at the close of the big campaign which is now drawing near the end. Every honorable means should be employed by all candidates to make their efforts a tremendous success. The mails, the telephone and personal interviews in person and by representative will all supply their quota of votes, and all contestants will find that the subscriptions secured during these last two weeks of the race will

C. OF C. SWELLS MEMBERSHIP BY BIG CAMPAIGN

Loyalty of Old Members and Interest of New Members Enlarge Enrollment

ORGANIZATION HAS A-1 RECORD

The dozen membership teams of the Chamber of Commerce are all hard at work and making successful reports at the office. Practically all old members are renewing their subscriptions and many new members have been added.

Few cities of Clearfield's size have received anywhere near as much in direct returns from their commercial organizations as Clearfield has received. This has guaranteed to Clearfield a strong organization just as long as the men will work together and achieve good results.

Clearfield's new industries are all prosperous and dump into the pockets of our people thousands of dollars every year, and will continue to do so for years to come.

The business men's profits on the part roll of one plant alone would maintain the Chamber of Commerce year in and year out—and the Chamber of Commerce directly assisted in the location of four industries in Clearfield and cooperated with a fifth, as the records of the Chamber of Commerce conclusively prove. These records are open to all members. Additional industries will be much more difficult to obtain. Economic and labor conditions have been materially changed by the location here of new plants. But a strong effort for a reasonable length of time will surely bring good results.

In the meantime, the Chamber of Commerce is constantly doing many things for the town outside of industrial promotion. But its industrial promotion work never ceases. Men are here every few days looking over our industrial advantages and almost any day it may be announced that still another factory has been secured for Clearfield.

It is a significant fact that not a single mercantile house or financial institution in Clearfield has withdrawn its membership from the Chamber of Commerce since it was organized in 1911. A few individuals have dropped out, but all mercantile or financial institutions have continued their active memberships.

Think of what it means to have a united business body in a town working for the advancement and the best interest of the community—working year by year, steadily persistently, not intermittently. It's the town or individual that "keeps everlastingly at it" that gets the bacon.

Advertise in The Progress.

be for longer periods than the early subscriptions.

A rich harvest of votes now awaits the ambitious contestants who will go after them in the proper manner, for the public now realizes as never before the generosity and excellence of this offer. This interest and enthusiasm is by no means limited to Clearfield but it is general throughout the county and community. A little hustling and well directed effort and thought for the short time that yet remains, is all that is required to win that big Overland touring car or any of the other prizes and any candidate may yet be a high winner—will you or your favorite candidate win a top prize?

PENNA. TROOPS TO CHANGE CAMP SITE

Commander Protests Order On Account of Heat.

Pittsburgh, July 11.—(By United Press)—High officers at Camp Pershing have ordered the 7th division comprising of Pennsylvania troops to change their camp site, so as to bring all the units together, according to a special dispatch received at Pittsburgh today. The Pennsylvania troops through their commander have protested the order, declaring that they have just recovered from several days hard work in the blistering sun, making their present camp habitable, and it would impose an unwarranted hardship on them to go through several more days of such hard work they say.

PHYSICIANS OF 3 COUNTIES TO MEET

Noted Specialists to Speak At Meeting Wednesday

One of the largest gatherings of physicians of this section is planned for Wednesday when there will be a tri-county meeting held at the Country Club at DuBois. It is expected that about a hundred physicians from Clearfield, Jefferson and Elk Counties will be in attendance, and specialists will address the meeting. The assemblage is a union meeting of the Jefferson County Medical Society, Elk County Medical Society and the Clearfield Medical Society, and will convene shortly after noon.

The following is the program arranged for the occasion: "Differentiation Between Medical and Surgical Abdominal Pains," by Prof. Edward Martin, professor of surgery at the University of Pennsylvania, Philadelphia.

"Review of the Most Recent and Modern Methods of Diagnosis," by Dr. William H. Meruer one of the foremost diagnosticians of Pittsburgh.

"Surgical Dilation by Hydrostatic Pressure," by Dr. Will Getman, prominent obstetrician, of Buffalo, and assistant professor of obstetrics in the University of Buffalo.

OHIO TO HOLD STATEWIDE HORSESHOE PITCHING CONTEST

Columbus, O., July 11.—(By United Press)—Ohio is to hold a statewide horseshoe pitching contest at the annual state fair early this fall.

Rules to govern all contests, both county and state, have been drafted and sent to secretaries of county fair boards who are distributing them to all who want to enter.

It is planned to hold contests at each county fair and the winners will compete for the state title at the state fair.

Important among the rules adopted for the contest are:

The distance between the pegs shall be 46½ feet.
Horseshoes shall not exceed 2 1-4 pounds in weight, not 7½ inches in length, nor 7 inches in width.
A game shall consist of 21 points.
"Ringers" shall count three points.
"Leaners" two points.
Magnetized shoes are barred.

SOUTHERN FORESTRY CONGRESS.

Asheville, N. C., July 11.—Of more than usual interest, because of its representative character, is the annual meeting of the Southern Forestry Congress which convened in Asheville today for a four-day session. In conjunction with the sessions of the congress there will be meetings of the Association of Eastern Foresters and the Southern Forest Fire Conference. Many states are represented. Prominent speakers to be heard include Gov. Locke Craig of North Carolina, H. S. Graves, chief of the United States Forestry Service, and several state foresters and state geologists.

France And Great Britain Say Deutschland Is Not a Ship of Commerce

BRITISH PRAISE THE VOYAGE

Washington, July 11.—(By United Press)—Great Britain and France will do everything in their power to prevent the United States from recognizing the super-submarine Deutschland as a ship of commerce, and to prevent a line of submarine freight carriers, proposed by the German steamship company. This was admitted by the embassies of the two governments today.

The British embassies published reports denying the actual statement that the Deutschland is a war ship. Any submarine, the embassy states, is potentially a warship, as any ship at sea cannot be able to determine until too late to save itself, whether a submarine was armed. Questions not only as to whether the Deutschland is a war ship or a merchantman, but as to the cargo of nickel on its return trip, and this may cause embargoes to be placed on this class of goods imported from Canada and Great Britain to this country. 90 per cent. of the nickel used in the country comes from Canada.

Baltimore, July 11.—(By United Press)—No restrictions were put upon Captain Heinrich, U. S. N. and customs men when they boarded the super-submarine Deutschland this afternoon to inspect her armament. Major Hilken of the Oceanic Transportation company was told by Captain Koenig that he did not care as the men would learn nothing new in the vessel's construction.

Berlin, July 11.—Every British newspaper today devoted part of its news column on the arrival of the submarine Deutschland at Baltimore. The editors' columns praise the submarine's voyage. The German ship builders are laughing at Simon Lake's threat to bring suit against the Deutschland's owners for patent infringement. "Was it right for Jules Verne to discover the submarine?" If Lake had the patent, why did he not build submarines like the Deutschland.

MUST PAY HIGH FOR WOOLEN GOODS.

New York, July 11.—Today marked the formal opening in the woolen trade for the lightweight lines for next spring. Many of the principal buyers, foreseeing the advance in prices on account of the war, laid in their stocks some time ago, so that the mill agents do not expect to see a very great rush of orders at the present time. There is still a large part of the clothing trade to hear from, however, and it is certain that they will have to pay record prices for their needs. In some cases, it is said, the mills have placed high quotations on their product for the express purpose of staying sales until such time as they are able to get what they ask.

The members of the Woman's Club attending the picnic tomorrow will go to Mineral Springs on the 1:15 P. M. train; jitneys will be provided for their return.

AUTO ACCIDENT AT INDIANA.

Turning out to avoid a passing vehicle an automobile, driven by John Walker, of Indiana, with Mr. and Mrs. David Pringle, and daughter, Maud, and Miss Morehead, of Indiana, as passengers, plunged over a 40-foot embankment just south of Punxsutawney late Sunday afternoon, and after turning over twice lodged against a stump and held. The occupants were thrown from the car but none was seriously injured.

Mr. Walker had driven to Punxsutawney and was returning home. Near the watering trough, just south of No. 3 mine on the Horatio road, he turned out to allow a buggy to pass. He turned his car too far to the left and the left front wheel went over the edge of the embankment. Before he could right the auto it tipped and plunged down to embankment. It struck a stump about midway down the declivity, which held it fast. The occupants were all thrown from the auto when it turned the first time.

Both Mr. and Mrs. Pringle are well up in years but beyond severe bruises they were uninjured, as were the other members of the party. Mr. Walker summoned a car from Indiana and the party reached home Sunday evening.

All the members of the auto party are suffering somewhat from shock but the condition of none of them is serious.

The automobile which Mr. Walker purchased about a month ago, is badly damaged.

READY TO RACE AT YONKERS.

Yonkers, N. Y., July 11.—Arrangements are complete for the opening here tomorrow of the seventeen-day race meeting under the auspices of the Empire City Racing Association. With many of the fastest horses in the East entered, the track in good condition and substantial purses promised for each day, the management expects one of the best meetings ever held at the local track. For the fifteen stake events on the program there are nearly 1,000 thoroughbreds named by seventy-six nominators.

IMPORTANT BUSINESS MEETING TONIGHT

WOMAN'S CLUB PICNIC

The Woman's Club picnic at Mineral Spring Park, July 11, will be a basket of having supper at Park. All members are attend.

Two dope fiends were arrested last evening in their room at the Witmer Inn by Chief of Police McHenry and Officer Aides for securing a quantity of morphine from Thatcher's drug store on Second street. Persons addicted to the habit of using drugs will resort to any means of securing it and on account of the Harrison law they cannot buy it now from the druggists.

One of the men entered the store in the afternoon and asked Thomas Aughenbaugh to give him some band-aids and to leave him some back of the prescription counter to put on, as his foot was very sore. Mr. Aughenbaugh gave his consent to this and was then called to the front of the store to wait on another customer who had just entered. It was while he was at the front of the store that the drug was stolen.

The two men left the store but did not appear to know each other until they were crossing the street to the Witmer Inn when Mr. Aughenbaugh noticed that the one handed something to the other. He then became suspicious as this game was an old one to the druggists, and investigated to see whether the morphine had been taken. He was unable to find the bottle containing twenty grains.

Mr. Thatcher, the proprietor, entered the store and upon being told of the robbery, called up Chief of Police Henry who in company with Mr. Aughenbaugh and Officer Aides went to the room occupied by the two men last night. The men at first denied that they had stolen the drugs, but after a severe grilling admitted the theft and returned the drug.

The officers were unable to find any trace of the bottle when they first entered as the fiends had removed the powder from the phial and put it in a small match box which lay on the dresser. They destroyed the label on the bottle and threw the bottle away. It was only after the men had broken down and admitted all that the officers found the drug.

The men were then arrested and taken to the borough lock-up where they spent the night. The room was again searched this morning and a quantity of cocaine found which is supposed to have been stolen at Wrigley's store at Curwensville yesterday morning. At Wrigley's one of the men asked for some iodine which he wanted to put on a sore finger. He was taken back of the prescription counter and while there stole about one eighth of an ounce of the drug while the clerk was waiting on his accomplice in the other part of the store. Mr. Wrigley did not miss the dope until this morning when Mr. Thatcher informed him that the two men had been caught.

This morning in the lock-up the two men broke completely down and told the entire story. They said they waited until there was only one person in the store so they could make their little game. They underwent a severe grilling before telling the story.

The two men were here a few months ago with the Coppins carnival and were in Clearfield yesterday en route to Philipsburg where they were to join the Doris carnival which is showing in that place this week.

Mr. Thatcher stated this morning that he would not prosecute the men owing to the physical condition which they are in. Mr. Wrigley, be in Clearfield some time today, will then decide whether to prosecute or not.

The men are practically phlegmatic, one of them saying that he had been a dope fiend for over years. They were taken to Clearfield hospital this morning the officials where they will receive treatment. Stealing drugs is a petty offense.

100 Per Cent Increase In Deaths And New Cases Infantile Paralysis

New York, July 11.—(By United Press)—Despite the strong efforts to exterminate the epidemic of infantile paralysis in Brooklyn and Greater New York, reports showed an increase of 100 per cent. in deaths and new cases in Brooklyn since yesterday. The total number of deaths since the epidemic began reached 270 today according to the latest reports of Health Commissioner Emerson 20 of these

were in Brooklyn. Yesterday only 9 deaths were reported in Brooklyn. The total number of cases reported is now 1278. Of this number 195 new cases were reported today. This is an increase of 32 over yesterday's report. Of the total new cases reported, 155 were in Brooklyn. Only 68 additional babies were found to be suffering from the disease in other

BAD MANAGEMENT.

The honorable discharge of enlisted married men is hailed with delight by all who have the welfare of the families of those men at heart but the order could have been put into effect before they left Mount Gretna just as well as along the Texas border. A majority of them were carried clear to El Paso and given their walking papers there. This little piece of mis-management has cost us several thousand dollars.

WORTH WORKING FOR.

The contestant who does the most business this week will receive a prize of \$25 for his efforts. The next two highest will receive \$15 and \$10 respectively. There is some worthy individual among the contestants who will appreciate your support in the help given to win these prizes. If you have not yet subscribed, now is your chance to make your money do the most good. You get a good live newspaper for a year, you help somebody win an auto and somebody win a \$25 cash prize.

ARE WE NEXT?

Philadelphia has had sixty-four deaths from auto accidents since January first. The loss of life has been brought to the attention of city officials and steps are now being taken to eliminate speeding and dangerous practices. It does not matter what they do, however, they can take no action that will restore life to the innocent child who has been robbed of its heritage or give consolation to the parents who have lost the little child in whom they looked for a realization of their fondest hopes. We have with us, some speeders. The time to apply the brake band is now and not after the crepe hangs on our doors.

DOPE.

For several months we have read of the efforts on the part of city officials in different cities trying to break the dope habit. Today we are brought face to face with the awful results of the habit. Two strange men, of good appearance, resorted to stealing in their desperation. The Federal law no longer allows habit forming drugs to be sold and we find men of more than the average intelligence stealing, lying and even committing murder to obtain dope to satisfy their false appetites. The effect of what dope these two men had in them had worn off this morning and left them in a state of physical weakness. One of them on being asked if he knew that he was liable to get a penitentiary sentence replied that he did not care what they did to him and that he would be pleased to be shot and put out of his misery. Dope to him is sweeter than life. It is to be regretted that the dope law was not passed until such a late date.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from An Excess of Hydrochloric Acid

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity, meaning, there is an excess of hydro-chloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy lump in the chest, we belch up gas, we eructate sour food or have heart burn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

"I feel twenty years younger, and sleep like a log when I go to bed," said Marie Schulz, of Grantham St., North Side, Pittsburgh, Pa. "since I began to take Tanlac."

"I had suffered for a long time with rheumatism, gas in my stomach, shortness of breath and my bowels were always giving me trouble."

"I often went for days at a time without sleeping, because of my terrible nervous condition."

"So I got a bottle. I had no idea I would get such quick relief. After I had taken about half a bottle, the rheumatic pains left my limbs. My stomach got so good that I could eat my meals and never feel bad afterward. My bowels got regular. When I would lie down at night, my head would hardly touch the pillow until I would be fast asleep. When I awakened in the morning, I felt rested and could hardly believe it was myself."

"Since I have been taking Tanlac, I have not been troubled with gas pressing up against my heart. I eat what I please. I go out among the neighbors and visit them and my friends, and if I want to go to a theatre I go and have a nice time. I never am afraid of being sick any more."

Tanlac is now sold in Clearfield exclusively by Woodward & McPherson, where the premier preparation can now be had.

INFANTILE PARALYSIS

Infantile Paralysis is a disease that affects the nervous system. It often causes death, and again, the acute stage frequently subsides and leaves paralysis of one or more of the limbs that heretofore has often lasted through life.

Today we do not know what causes the disease, therefore preventive measures must be broad. You must keep the children away from insect life, such as flies, mosquitoes, fleas, bed bugs, ticks, ants, lice, etc. You should see that all rats and mice around the building are killed. Pet cats and dogs should be washed with a two per cent carbolic acid solution to destroy insect life. Everything should be kept clean about the home, including the children's bodies and clothing.

Children should be fed well but not indulged in large quantities of water, ice cream or other frozen dishes on a full stomach, as that will often cause acute indigestion and render them susceptible to other diseases. In other words, the digestion should be guarded carefully.

Children should have plenty of sleep. They should be well ventilated but screened from flies, etc., and any flies that happen to enter the building should be killed. All food-stuffs should be protected from flies, dust, etc. Fruit and vegetables eaten raw should be thoroughly washed in clean water.

Children's mouths should be rinsed out and their throats gargled with Dobell's solution after each meal. If the children are too young to rinse or gargle, wash the mouth with a piece of fabric, muslin or linen, that has been dipped in Dobell's solution.

Children should be kept out of crowded places and be denied the frequent access to crowded halls of entertainment during our present threat with epidemic.

The youngsters should not be permitted to sit on the damp ground nor have their bodies thoroughly chilled, day or night. They should not bathe in cold water until their circulation is interfered with and they become chilly and blue.

A Mammoth Storewide Stock Reduction of Fine Spring and Summer Merchandise, Priced at Cost and Less
Beginning Wednesday, July 12th, at 9: A. M.

Selling throughout Spring and early summer was heavy but not heavy enough to close out stocks. We must sell this surplus and sell it immediately, it being the unfailing policy here never to carry goods from season to season. We feel that nothing so forcefully represent the savings as the simple but truthful statement that prices now are lower than in any previous clearance when there was no European war to disturb conditions. Values in the 1916 July Clearance are the best presented in our many

years of store-keeping. They are extraordinary and plentiful, existing in good numbers in all departments.

Remember the opening date of this great Sale event, Wednesday, July 12th, at 9 a. m.
